### CURRICULUM VITAE

#### **STATEMENT**

My work consists mainly of color photographs, which I print using archival materials. Many of my images involve the everyday urban environment, focusing on the pure design elements of line, texture, shape, color and form, and the places where these elements fall serendipitously together to produce something profoundly beautiful.

I admire the work of many photographers, but my greatest inspiration comes from painters. Hopper, Mondrian, Rothko, and many more with unique vision have informed my work. Like them I hope to craft new ways to see and experience one's visual environments.

My work has been featured in the Boston Globe, Project Exposure Magazine and various other publications.

#### **MEMBERSHIPS AND ACTIVITIES**

Advisory Board Member; Chimera Gallery, Nashua, NH, 2004 -

Former member-artist; former member of Board of Directors; AVA Gallery, Lebanon, NH
